Intermediate Vijayawada, India
 - Percentage: 95.3
- **Sri Chaitanya International Olympiad School** 2021
10th Vijayawada, India
 - Percentage:89

PROJECTS

Contemporary Periodic Table, Developed a console-based application in C to represent the Contemporary Periodic Table. A modern representation of chemical elements arranged by atomic number, electron configuration, and periodic properties to aid in chemistry education. First Semester Movie Ticket Booking, Developed a console-based Movie Ticket Booking System in C using data structures like arrays, structures, and linked lists. Enabled users to view available shows, select seats, and book tickets efficiently. Implemented basic file handling for storing booking details. Second Semester Weather App, Built a weather app that works on all devices. Shows live weather updates and a 5-day forecast based on user's location or search. Designed the frontend with React.js and Vite for fast performance, smooth navigation, and dynamic pages. Developed the backend with Spring Boot to handle API calls, process user input, and store data in MySQL. Fourth Semester, React.js, Spring Boot, REST APIs, OpenWeatherMap API, MySQL
